

Upgrading a VDC DVR

Applies to: VDC-4 or VDC-9

1. Download the ISO disc image file from the internet:

<http://www.oceansystems.co.uk/FirmwareUpdates.asp>

by right clicking on the link and then selecting "Save target As." Select a suitable location on your computer to save the ISO file.

2. Use a CD burner such as Nero or Roxio to burn the upgrade file onto CD. You may also use the free utility "ISO-Burner" which may be downloaded from our web site:

<http://www.oceansystems.co.uk/FreeSoftware.asp>

3. Insert the upgrade CD that you have created CD into the DVR.
4. Press the "Setup" key and using the arrow keys select "Config" and then select "Upgrade from CD" in the menu the screen will indicate that the upgrade is in progress.
5. Do not remove power until programming has been completed this will corrupt the file.
6. When the unit restarts the upgrade is complete.
